

## **BEST PRACTICE 1**

### **1. Title of the Practice:**

#### **Exploring and Learning ICT for smoothening the way of Online Teaching-Learning**

This title should capture the keywords that describe the practice.

### **2. Objectives of the Practice**

What are the objectives / intended outcomes of this “best practice” and what are the underlying principles or concepts of this practice? (in about 20 words)

To equip the

- a. faculties with the technological knowledge and skills to handle the challenges of online education.
- b. students in learning their respective subject content with the aid of technology.

### **3. The Context**

What were the contextual features or challenging issues that needed to be addressed in designing and implementing this practice? (in about 30 words)

In this covid pandemic situation the higher education institutions have undergone technological transformation to handle the emerging challenges. To overcome this pandemic situation and provide high quality education required digital transformation innovative technologies to overcome the barriers and challenges due to covid-19 disruption.

### **4. The Practice**

**Describe the best practice and its uniqueness in the context of India higher education. What were the constraints / limitations, if any, faced? (in about 50 words)**

The required covid-19 adaptations are prompting colleges and universities to adopt online learning comprehensively, so that students are supported with various technologies to help them complete their courses successfully and attain credentials. A wide range of new applications and technologies are available to help students adapt to their traditional offline learning.

### **5. Evidence of Success**

**Provide evidence of success such as performance against targets and benchmarks, review/results. What do these results indicate? Describe in about 40 words.**

Students were provided study materials online in MS word, PDF, PPT and JPG format and within few weeks of beginning online classes attendance of students remarkably increased. They were also helped to access library facilities in a well thought and systematic way.

## **6. Problems**

**Encountered and Resources Required Please identify the problems encountered and resources required to implement the practice (in about 30 words).**

With the beginning of technological endeavours different issues regarding formative evaluation of large groups of students cropped up. Few sessions of counselling and meeting with the teachers made the students confident enough to attend online class. Few unavoidable problems still exist which are handled with care and sincerity.

## **7. Notes (Optional)**

Please add any other information that may be relevant for adopting/ implementing the Best Practice in other institutions (in about 30 words).

Any other information regarding Institutional Values and Best Practices which the institution would like to include.

## **BEST PRACTICE 2**

### **1. Title of the Practice:**

#### **Health related activities for well-being in Covid pandemic**

This title should capture the keywords that describe the practice.

### **2. Objectives of the Practice**

What are the objectives / intended outcomes of this “best practice” and what are the underlying principles or concepts of this practice? (in about 20 words)

- i. To conduct online awareness programme regarding health issues in covid pandemic.
- ii. To conduct Covid 19 vaccination programme.

### **3. The Context**

What were the contextual features or challenging issues that needed to be addressed in designing and implementing this practice? (in about 30 words)

To reduce the number of people infected with COVID-19 movement of people was restricted which caused huge changes to our daily routines. The fear of contracting the virus and worrying about people close to us were challenging for all of us.

### **4. The Practice**

Describe the best practice and its uniqueness in the context of India higher education. What were the constraints / limitations, if any, faced? (in about 50 words)

The college takes initiative to invite Doctors to deliver online lecture on Covid-19 pandemic issues. All students and faculty joined through Gmeet and Youtube streaming. The lecture was followed by various questions raised by students and faculty.

Vaccination drive has also been undertaken when 212 people got vaccinated.

### **5. Evidence of Success**

Provide evidence of success such as performance against targets and benchmarks, review/results. What do these results indicate? Describe in about 40 words.

The Covid-19 Vaccination drive helped 212 people to get vaccinated and this number is quite large.

### **6. Problems Encountered and Resources Required Please identify the problems encountered and resources required to implement the practice (in about 30 words).**

Many students are first generation learners from lower economic strata, therefore they do not get any idea about importance of healthy living from their family. To make the students aware and conscious regarding health issues is not an easy job.

### **7. Notes (Optional)**

Please add any other information that may be relevant for adopting/ implementing the Best Practice in other institutions (in about 30 words).

Any other information regarding Institutional Values and Best Practices which the institution would like to include.
