

The Department of Economics began its journey in 1948-49 with the introduction of General Course in Economics. In 1965-66 Honours Course in Economics was introduced. Since then the course and syllabus has gone through a number of modifications and currently it's being taught under the CBCS mode as a 3-year: 6-semester Honours course in Economics along with a Generic Elective subject in Economics.

The aspiration of the Department is to become providers of economics education and research so as to secure the best possible outcomes for our stakeholders and for the broader societies in which we operate. We strive to be the facilitator for empowerment and enlightenment of girl students through value-based and quality education. The Bachelor of Science in Economics at Muralidhar Girls' College provides a combination of academic rigour and career preparation with a sense of social responsibility, while offering an equal chance for all students.

Programme Outcome: The Economics Program both Honours and General helps students think critically about the economic issues they confront in their daily lives through the creation, application and dissemination of economics knowledge and develop a commitment to be actively engaged in issues of local, national, and global communities.

Apart from core economic areas of Microeconomics and Macroeconomics, the Programme also emphasizes on Applied Mathematical Economics, Econometrics, Managerial Economics, Indian Economy, Public Economics, Environmental Economics, Development and Gender Economics, Data Analysis, Rural Development, Research Methodology, International Economics, Applied Econometrics, Economic History of India, Comparative Economic Development, Financial Economics and Money & Financial Markets. This broadens the horizon in terms of both academics and industry experience.

Career opportunity: An undergraduate student of Economics can pursue higher studies in Economics or Management Studies or can pursue a career in Civil Services. Career options in Economics include jobs in Core Academics, Banking Sector, Trade, Commerce, Insurance, and jobs like Economist, Financial Risk Analyst, Accountant, Investment Analyst, Financial consultant, Data Analyst, Researches and more.
